

Structural & Miscellaneous Steel Detailing

STEEL DETAILING SERVICES PVT.LTD.

About Us

3 Axial was started by a team of experienced individuals having expertise in Structural Steel Design & Fabrication.

Started in the year 2016 at Bangalore India, we are now a team of 30+ checkers, modelers, editors & project managers having sufficient experience on shop floor & field catering to all your structural steel design & detailing needs.

Together we ensure that all the projects are executed with utmost precision and defined schedules.

Our strength is our Quality Management System (QMS) enabling our organization to achieve the goals and objectives set out to provide consistency and satisfaction in terms of services and interact with all activities of the organization, beginning with the identification of customer requirements and ending with their satisfaction, at every transaction interface.

A Fully documented QMS help us to :-

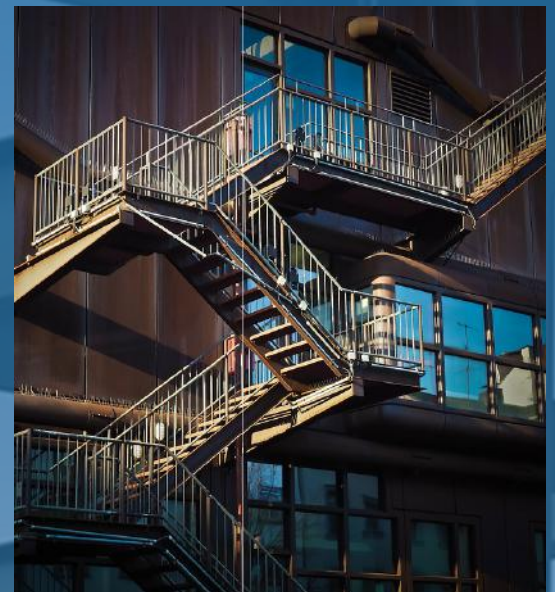

- Set Direction & Meet Customer's Expectations
- Improve Process Control
- Zero Back Charges
- Enhance Efficiency
- Reduce Wastage
- Facilitate Training
- Involve Staff
- Raise Morale

We at 3Axial provide world class quality services adhering to the below standards :-

- AISC
- BS
